Check out...

The main entrance of a hotel is the first environment guests experience when they visit and Bauporte understand the importance of making a great first impression.

It is the entrance lobby that creates the initial welcoming environment and visitors who are often a great distance from home and travelling with luggage, require very high standards of comfort, safety and convenience.

< an introduction.....
...hotel entrances with vision

> check in.....
...Bauporte

Bespoke Entrance Systems from Bauporte have been implemented in hotels around the world, ranging from independent guest houses to major international chains.

Bauporte's mission is to continuously innovate and push the boundaries of entrance design; we believe little, if anything, is impossible; we always try to raise the bar, to exceed our customers' expectations and to enthusiastically embrace new challenges.

∨ first impressions.....

...nothing is more elegant than an attractive entrance

comfort, security & energy

Bauporte recognise that guests need to feel as safe, secure and comfortable staying in a hotel as they do in their own home. All Bauporte entrance products are designed and constructed to the highest standards, featuring state-of-the-art materials and safety devices.

Large diameter revolving doors make ideal hotel entrances, providing the convenience of automatic doors while maintaining an effective barrier between the internal and external environments; thus allowing the lobby air temperature to be controlled despite people passing through. In hot climates, this means the lobby can remain an oasis of calm and cool no matter the conditions outside and in colder climates, the opposite applies.

Automatic doors provide the ideal solution where weather conditions are not an issue or where space is limited. By taking the human effort out of the equation, automatic doors offer the possibility to take conventional doors to a new level with dimensions and designs limited only by the imagination and technical limits of materials.

∨ the experience.....

...beautiful doors

case studies

Hotel Valk
Amsterdam

Bespoke 6000mm high, 3-wing automatic **Circular Prestige** revolving door with collapsible doorset and coloured changing LED strips to glazing.

Wyndham Hotel
Aruba

Contemporary 3-wing manual **Circular Prestige** revolving door with bespoke profiles in mirror polished stainless steel.

St Martin's Lane Hotel
London

Bespoke 5500mm high, 3-wing automatic **Circular Prestige** revolving door with a coloured, back-lit ceiling provides one of the most instantly recognisable revolving door installations in London.

Radisson Blu Resort
Malta

Bespoke 2500mm diameter, 4-wing automatic **Circular Prestige** revolving door with a yellow, back-lit ceiling and highly polished gold-coloured stainless steel finish, together with 4 single-sliding automatic doors designed to withstand extreme wind pressures, combining strength and beauty.

Imperial Hotel
Vienna

Modern convenience combines with traditional styling in this 2-wing automatic **Circular Prestige** revolving door with bespoke profiles and canopy fascia in polished, lacquered brass finish.

aesthetics and appearance

Bauporte provide bespoke solutions based on individual requirements and are uniquely placed to deal with the special architectural challenges that hotel entrances pose.

Creating an entrance that reflects the personality of the hotel is a skill that requires understanding, flexibility of approach and ingenuity.

Bauporte offers a range of bespoke products that fall into two basic groups; Revolving Doors and Automatic Doors.

This in itself is not unique but it is the philosophy of "yes, we can" that sets the company apart in an industry that generally offers standard products. All Bauporte products are made to order and this allows a degree of design and architectural input that mass-production cannot match. Whether it is unusual dimensions, custom profile sizes, special finishes or glazing, Bauporte works with clients and architects to create individual solutions for every occasion.

< an oasis of calm.....

...the Bauporte vision

At Bauporte we work with designers and project teams to create outstanding entrances. We believe clients should not be forced to compromise their vision to what can be easily manufactured, but that as a specialist supplier, we should listen and strive to adapt accordingly.

Bauporte's ability to keep the whole process in-house, from initial design right through manufacture, installation and finally, maintenance, allows us to retain full control and ensure continuity of care and maximum attention to detail.
